

JustiFLY®

JustiFLY® Feedthrough 360 gram: 12.7 oz for \$14.89

- **JustiFLY® Feed Through in a convenient 360 gram add-pack for use on-farm;**
- **The economically priced 360-gram add-pack treats one 50-lb. bag of mineral;**
- **Breaks the life cycle of horn fly, stable fly, house fly and face fly for pennies per head/day;**
- **No animal-handling stress for fly control, no withdrawal period;**
- **Approved in all beef and dairy cows (including lactating cows), confinement and pasture cattle**

JustiFLY® Feedthrough 360gram is an insect growth regulator (IGR) larvicide available for use on-farm that effectively treats horn flies as well as disease-caring face flies, biting stable fly and nuisance houseflies. New JustiFLY® Feedthrough add-pack is priced to allow beef and dairy producers cost-effective fly control and stopping the larvae from developing once in contact with treated manure. The new add-pack allows producers full-season fly control while utilizing their own specific mineral choice. There's no longer a need to change minerals to economically include fly control. New JustiFLY® Feedthrough in a convenient 360-gram (12.7-ounce) add-pack for use with free choice minerals to control flies on pasture and confinement cattle. The economically priced 360-gram add-pack treats one 50-lb. bag of free choice mineral.

JustiFLY® Feedthrough 3% 50 lbs. bag,, \$711.92

JustiFLY® Feedthrough 3% is an insect growth regulator (IGR) end-use product that prevents the development of horn flies, stable flies, house flies and face flies in the manure of treated cattle, lactating and non-lactating beef and dairy cows, slaughter, stocker and feeder cattle and calves, including veal calves. It contains Diflubenzuron Insect Growth Regulator [IGR] and it may be used in an integrated pest management fly control program. When mixed with feed or mineral supplements, diflubenzuron passes through the digestive tract and into the feces in sufficient concentration to kill fly larvae. It can be mixed with free-choice minerals. JustiFLY® 3% effectively controls horn flies and nuisance face, house and stable flies for a comparable per-head price to horn fly only feedthroughs and it is more concentrated formulation easy to convert for optimal savings.

JustiFLY® Feedthrough – Part high-tech killing machine, part economic stimulus plan.
